GitHub Apps

OAuth Apps

Personal access tokens

GitHub Apps

Want to build something that integrates with and extends GitHub? Register a new Gith developing on the GitHub API. You can also read more about building GitHub Apps in documentation.

GitHub Apps

OAuth Apps

Personal access tokens

Personal access tokens

Generate new token   Revoke all

Tokens you have generated that can be used to access the GitHub API.

jhy — *public access*
⚠ This token has no expiration date.   Last used within the last week   Delete

My token — *repo*
⚠ This token has no expiration date.   Last used within the last week   Delete

Personal access tokens function like ordinary OAuth access tokens. They can be used instead of a password for Git over HTTPS, or can be used to authenticate to the API over Basic Authentication.
